Bassano Bakery Changes Hands

Mrs. M. Lee has sold the Bassano Bakery to J. Stoenes, of Leduc, and the new proprietor will take over the management of the business next Monday.

The Bassano Bakery was started in 1910 by Mr. Lee, and after his death in 1918 Mrs. Lee was carried on the business up to the present time.

J. Stoenes, the new proprietor, is a baker of many years' experience, and has been six years in western Canada. He plans to install a bread wrapping machine and other equipment, and in addition to baking various kinds of bread, he will make hams, cookies, cakes, pies, doughnuts, etc.

Countess News

COUNTRESS, Sept. 19.—Mrs. T. Newman has been after a week's visit with Mrs. Wallace at Tilly.

A tea was given at the hall of the services on Sunday in honor of Mr. Graham, pastor, who is leaving soon for his home in the east.

Mrs. J. Nease is ill from the flu. A number of the farmers are busy threshing.

Mr. Wilson, of Bassano, was a visitor to the Matlick home on Tuesday.

Mrs. M. H. Gamble gave a dinner on Sunday. Those invited were: Mr. and Mrs. Jones and daughter, D. of Rosemary, Mr. Graham and Mrs. Stas.

Mrs. H. Cowen has fully recovered from a bad case of the flu.

Mr. Graham was calling in the district this week.

The death occurred in the Holy Cross Hospital, Calgary, on Saturday Sept. 14, of Mrs. G. Shortland, at the age of 42 years. Mrs. Shortland was a former resident of Countess, and highly esteemed by the people of this district. The funeral of the late Countess woman took place at the bereaved husband and other relatives.

Several changes in the C. P. R. time table will take place on Sept. 29 which will affect our local trains. It is expected that the C.P.R. D.N. R. will place quite a number of new settlers in our district during the coming fall and winter.

Rev. P. C. McCrear, minister of Knox Presbyterian Church, Bassano, has consented to administer communion to the United Church congregation at Rosemary and Countess next Sunday, Sept. 22, at Rosemary 11:30 a.m. and at Countess 3:30 p.m. Mr. McCrear will also administer the sacrament of baptism at the same time to any who may so wish. Members of all churches are invited. Mr. Graham, the United Church student who has been in this field for the summer months, will take Mr. McCrear's service at Lethbridge at 3:00 p.m.

Gem News

GEM, Sept. 19.—Five carloads of No. 2 wheat and two carloads of No. 1 wheat shipped out from Gem over the new Gem spur during the past two days. B. Hoffridge is the farmer who shipped the two carloads of No. 1 wheat.

Mrs. A. Lewis is expected home during the next few days.

Please note the change of date for the school fair dance. This dance will be held on Friday, Sept. 19th, and not on Thursday, as first advertised. The Bassano Orchestra has been engaged to play the music. The fair will be held on Thursday.

Mrs. E. Small and children left on Monday for Banff where they will be holding for the next two weeks. H. J. Jones is visiting with H. Small.

G. Villet is at present receiving treatments from the Mayo Bros. at Rochester.

Five carloads of wheat left the Colony on Monday morning.

Almost 60 per cent of the threshing crew at the lanchon have returned home in their names to the secretary, C. McMillan, at the Canadian Bank of Commerce building, not later than Saturday Sept. 21st, so that the necessary arrangements can be made. The price of the lanchon is 60 cents.

On Tuesday, the school children enjoyed the talk given Monday on the school fair by Mr. Jacobson, of Brooks. The fair will be held in Brooks Sept. 27.

George Taylor spent Sunday with his family in Gem.

Mr. and Mrs. P. Gellings and family were Sunday visitors at the Ankum home.

Threshing is almost completed in this district. Most of the grain is grading No. 2, and some No. 1.

Mr. and Mrs. Nagel made a business trip to Brooks Monday.

Young Raymond Tangway was a Countess visitor last Sunday.

Mr. Graham is leaving Sunday, Sept. 22, for the east. Rev. P. C. McCrear, of Bassano, will conduct services.

Mr. and Mrs. Engleking, of Mayberry, visited at the home of their daughter, Mrs. Claude Narum, for a few days. Mrs. Narum's sister and children were also of the party.

Sunday morning Ray Wilfley had the misfortune of upsetting a grain truck. Considerable damage was done to the truck. He had with him Ray and Kenneth Bramwell. All escaped with only slight injuries.

Mrs. Fred Pickett and Miss Nora left for Taber. Mrs. Pickett is attending in Taber for several weeks, and then she will go to Raynolds where they intend living during the winter. Miss Nora will return by train in a few days.

The W. B. Stuckey family enjoyed the visit of Mrs. and Mrs. Afrande on Sunday.

Mr. Jones is now riding around in a new Nash car.

Wm. Smith, of Gleichen, was in the Colony Wednesday.

Rosemary News

ROSEMARY, Sept. 19.—Miss Fay Robinson returned from Chinoak Sunday accompanied by her mother, who expects to visit several weeks here.

Mr. and Mrs. Joe Rohrbach and family, of Hutton, enjoyed the company of Mr. and Mrs. Tangway, Miss Yvette Tangway, and Leo, and Mr. and Mrs. Laganiero last Sunday.

Claude Narum was a Bassano visitor.

Plumer Will Talk On Wheat Marketing

Wheat Pool Director Will Give Address at Board of Trade Meeting

Don B. Plumer, Bassano farmer and a director of the Alberta Wheat Pool, will address the Bassano Board of Trade at their regular luncheon meeting next Wednesday, Sept. 25th, in the Hunter Hotel.

Mr. Plumer's address will be on "Co-operative Marketing of Wheat," and as a director of the Alberta Wheat Pool, the speaker is well qualified to speak on this subject which is of so vital interest to the grain growers of western Canada.

The Board of Trade wishes to extend to all farmers of the district an invitation to attend this meeting. The luncheon is at 1:00 o'clock, and the address at 1:30. All members and non-members desiring to secure seats in the luncheon should hand in their names to the secretary, C. McMillan, at the Canadian Bank of Commerce building, not later than Saturday Sept. 21st, so that the necessary arrangements can be made. The price of the luncheon is 60 cents.

On Tuesday, the school children enjoyed the talk given Monday on the school fair by Mr. Jacobson, of Brooks. The fair will be held in Brooks Sept. 27.

George Taylor spent Sunday with his family in Gem.

Mr. and Mrs. P. Gellings and family were Sunday visitors at the Ankum home.

Threshing is almost completed in this district. Most of the grain is grading No. 2, and some No. 1.

Mr. and Mrs. Nagel made a business trip to Brooks Monday.

Young Raymond Tangway was a Countess visitor last Sunday.

Mr. Graham is leaving Sunday, Sept. 22, for the east. Rev. P. C. McCrear, of Bassano, will conduct services.

Mr. and Mrs. Engleking, of Mayberry, visited at the home of their daughter, Mrs. Claude Narum, for a few days. Mrs. Narum's sister and children were also of the party.

Sunday morning Ray Wilfley had the misfortune of upsetting a grain truck. Considerable damage was done to the truck. He had with him Ray and Kenneth Bramwell. All escaped with only slight injuries.

Mrs. Fred Pickett and Miss Nora left for Taber. Mrs. Pickett is attending in Taber for several weeks, and then she will go to Raynolds where they intend living during the winter. Miss Nora will return by train in a few days.

The W. B. Stuckey family enjoyed the visit of Mrs. and Mrs. Afrande on Sunday.

Mr. Jones is now riding around in a new Nash car.

Wm. Smith, of Gleichen, was in the Colony Wednesday.

AIRPLANE BUILDERS NOW HAVE MOTOR

The motor for the Scotts-Brooks airplane arrived last Sunday from Toronto. The motor is a Deltair, land four cylinder in-line 100 h.p. cooled, and rated at about 100 horse power.

Bassano's two air pilots are now busy installing the motor in their plane which is practically complete except for mounting the motor.

Silent Policemen Are Taken Away

The three silent policemen which were stationed on guard at the bus intersection in Bassano have been removed.

These silent policemen, for many years stationed in the corner of the thoroughfare at Elphinstone's corner at the Haffner Hotel corner, and at the post office corner, were ordered off the streets by the public works department of the town. It was considered they were of little value as traffic regulators, so they have been taken into the city.

These three interesting vehicles were further improved this week by building them up with clay, and then finishing up with a coating of plaster. Other improvements have been treated in the same manner, and the improvement is considerable.

New Heating Plant Installed At Hospital

A new hot water boiler, with a capacity greater than that of the two old boilers, has just been installed at the Bassano Hospital.

One of the old boilers was wrecked a couple of weeks ago when it exploded after the janitor had lit the first fire since last spring. The new heating unit will be infinitely more satisfactory than the two old ones.

The new heating unit being installed patients in the hospital were kept comfortable on chilly nights by the use of electric heaters.

"Singapore Mutiny" Is Startling Drama

With a refreshing novelty of theme and locale, in these present days of cinema amusements, and presenting the stirring story of Singapore, the film "Singapore Mutiny" is a leading role that gives ample expression to their outstanding artistry. "The Singapore Mutiny," the 21st production that proved to be of notable merit and worth, will be shown in the Gem Theatre Friday and Saturday of this week, Sept. 20 and 21.

The story is laid about ship—a grimy freighter bound for Singapore from San Francisco—among the four passengers on which is a dangerous and deadly Daisy Martin. What the wiles of Daisy, liberally distributed among the two-fisted seamen from captain's bridge to stokehold, bring about in the way of battle, turmoil, and actual mutiny, culminating in shipwreck, makes a thrilling sea classic that closely holds the audience.

Ralph Ince, who directed the picture and also directed honors in the leading roles with Estelle Taylor, is impressive as usual in his finished performance—this time is a hulking, cruel stokehold bully, whose slant on life in general underdresses a marked change due to Daisy Martin's influence.

And as the capable Daisy herself, Miss Taylor scores an emphatic success in a rather trying role that calls for all her coquetry and much dramatic power in the climactic incidents that bring the story to a whirlwind finish.

Monday and Tuesday, Sept. 22 and 23, "Crested Auklet," a thrilling romance of hell's kitchen in New York.

Wed. and Thurs. Sept. 25 and 26, "Diamond Handcuffs," the film sensation of the year.

Friday and Saturday, next week, Sept. 27 and 28, Clara Bow in "Dangerous Curves," now showing at the Capitol Theatre, Vancouver.

Seventh Seasonal Govt. Crop Report

Issued by the Department of Agriculture, Edmonton, Sept. 14.

Threshing is fairly general throughout the province, and in many cases is yielding higher than was anticipated. Threshing has been resumed in most districts after a short period of unsettled weather which delayed operations to some extent, and with continued good weather will be completed somewhat earlier than was the case last year.

From the reports received it is estimated by the department that the average wheat yield for the province will be between eleven and twelve bushels per acre. This is as close as the estimate can be made with any degree of accuracy until further reports are received from the threshing throughout the province. The above figures are based out by the returns which have already come in.

According to an estimate arrived at jointly by the Department of Agriculture and the Dominion Bureau of Statistics, the wheat average in Alberta this year has been placed at 7,423,962 acres.

A very satisfactory feature of the present season's yield to the high quality of the majority of the wheat being threshed, many districts reporting a large percentage of No. 1 and No. 2. In some cases, however, the grade has been reduced by the presence of green kernels, but in very few cases is the grade below No. 3.

It is apparent from the reports that there will be a shortage of seed oats available for next year's crop in some districts in the central part of the province, but it is believed this demand can be met satisfactorily by other sections of the province where a heavier yield of the coarse grains is being threshed.

Negotiations have been under way between the Alberta Government and the railway companies respecting the free shipment of hay and straw, and it is expected that the plan will be in operation after Sept. 18. Farmers interested in taking advantage of this arrangement are asked to communicate with the department of Agriculture where full information is available.

A careful survey made by the field representatives of the Department indicates that a comparatively small amount of hay will be required, as every available source has been made use of and the dry weather has permitted the cutting of hay on many farms. The hay has been previously stored, though were previously stored.

Parents Told Of School Curriculum

Principal W. King Outlines Subjects Taught in High School

At a public meeting held in the Town Hall Tuesday evening this week, Sept. 17th, W. King, principal of Bassano school, gave an outline of the school curriculum, and the method of teaching employed in the unit system. The meeting was held for the purpose of giving parents an opportunity of becoming familiar with the high school work. The matter was discussed at some length, and many questions asked and answered.

With regard to teaching Grade 10 in Bassano, it was learned that this could only be done by increasing the size of the teaching staff, as the members of the present staff require their full time to handle the subjects now being taught.

The school board find it necessary to engage a teacher to take the classes of Jas. Wright, who has resigned because of ill health. Mr. Wright will carry on until another teacher is engaged.

Old Time Leaving Majorville District

Jas. H. Jordan, an old timer of the Majorville district, has traded his farm, and is holding an auction sale of his livestock, farm implements, and household goods. Mr. Jordan has been in ill health for many months, and plans to go to Rochester for treatment from the Famous Mayo Bros. clinic.

The auction sale will be held at the farm on Friday, Sept. 27, Mrs. Gray, the Gem auctioneer, will cry the sale. In the list of live stock which will be knocked down to the highest bidder there are six stallions of horses, including some of the finest stock horses in the country.

A system of "Mr. Jordan's" farm has been leased by A. Beaudry, and the remainder has been leased by Jas. Daw.

Mr. Jordan hopes to leave for Rochester within a few days of time.

RALLY DAY SERVICE

The annual rally day service of Knox Sunday School will be held on Sunday, Sept. 29th, at 11 a.m.

The amount required will, of course, depend upon the length and severity of the winter. There has been quite a demand for feed coats, and the sales have been very good.

Officers Elected For Gem School Fair Association

Full Program of Exhibition and Sports Events Planned for Thursday, Sept. 26th

GEM, Sept. 18.—At a meeting held in the Gem school on Friday, Sept. 13th, the following officers were elected to the Gem School Fair Association:

President, D. K. Douglas; vice president, J. P. Royer; secretary, L. O. Burger. Members of the executive: Mrs. J. Gray, Mrs. R. E. Robson, J. B. Sparks, Mrs. N. Sandahl, Sports committee, J. P. Royer, L. O. Burger, C. L. Douglas, Joe Gray, roots and vegetables committee, H. J. Scheibner, T. L. Maguire, B. E. Selbridge. Reading and grounds committee, J. P. Royer, L. O. Burger, C. L. Douglas, Joe Gray, roots and vegetables committee, H. J. Scheibner, T. L. Maguire, B. E. Selbridge. Cooking and serving committee, Mrs. R. H. Martin, Mrs. W. B. Follock, Mrs. J. B. Sparks, Mrs. W. B. Follock, Live stock committee, A. P. Miller, F. Rumble, N. Atkins.

The various committees are preparing the details of their part of the school fair program, and much interest is being displayed by children and parents. The children are getting ready their exhibits of school work, garden produce, livestock, sewing and cooking, and some splendid exhibits will be on display on the day of the fair.

Those showing exhibits should deliver them to the secretary by ten o'clock in the morning of fair day, Sept. 26th.

Judging will take place as soon as possible, and the exhibits will probably be open for public inspection early in the afternoon.

A program of sports for the boys and girls will be run off in the afternoon, starting at 1:30 o'clock.

At 5:00 p.m. there will be public address on school fair work and other interesting subjects.

The boys and girls will be treated to a free picture show in the school building at 5:00 o'clock in the evening. This show is to be given under the auspices of the Extension Department of the University of Alberta.

The fair association will also hold a dance on Friday, Sept. 27th, the day after the fair. The Bassano Orchestra will provide the music. It was originally planned to hold a dance on Thursday evening, the day after the fair, but this has been changed to Friday evening, the day after the fair.

Here and There
 (183)

"The greatest apple crop in the history of Nova Scotia," is the almost unanimous opinion expressed by prominent fruit growers and Government experts of the province. It is estimated the crop will reach 2,000,000 barrels, at least half a million barrels more than any other crop ever raised in Nova Scotia.

In preparation for the opening of the 1933 big game hunting season in New Brunswick, 10,000 hunting licenses have been sent out from the Department of Lands and Mines to 250 vendors in all parts of the province.

CANADA'S WHEAT EXPORTS
 Ottawa—Canada stood first as an exporter of wheat during the 1932-33 crop year, with exports of 555,082,378 bushels. The United States came second with exports of 168,507,000; Argentina third with 155,350,000, and Australia fourth with 30,800,000 bushels. The report of the Bureau of Statistics also shows that for 1932-33 the world's wheat production was 4,315,400,000 bushels, of which Canada produced 479,645,000 bushels, ranking third with Russia in first place and the United States second.

ALBERTA GAS FOR MONTANA
 Calgary—The Calgary Gas Export Company has applied to the Dominion Government for a permit to send its surplus gas over the border into Montana, several Montana towns having tentatively agreed to purchase the pipe line products from the Turner Valley if and when it may be delivered.

ONE CARLESS MOMENT
 Every hunting season takes its toll of human life as well as that of the animal. The present hunting season is no exception, and already two men have lost their lives in shooting accidents. The second fatality occurred on Tuesday a few miles east of Brooks. This tragedy particularly affects the writer, as the victim of the accident was an old schoolmate.

The hunter carries a dangerous weapon, and at all times he should exercise the greatest care in handling it. A moment's carelessness in the settlement of the hunt and a human life may be snuffed out like a feeble candle flame in a high wind. Extreme care in the use of fire arms will reduce the number of hunting accidents.

OUR SEVEN WONDERS
 Pondered as to how to quickly fill his column so as to be free for an afternoon of golf, an editorial writer recently conceived the happy idea of listing the seven wonders of his community.

The crane spread to Calgary. The Herald taking it up, and then to Drumheller, the editor of the Drumheller Mail naming the seven wonders of the coal city.

Bassano being a busy, thriving, up-to-date town we feel that we must keep pace with our contemporaries and tell the world about the seven wonders of our town.

The list of Bassano's wonders is compiled rather hastily, the editor not having time to give the matter much thought. Perhaps it can be improved upon. Here it is:

The Bassano Dam; The Town Irrigation System; The Town Trust; The Wheat Farm; The Scott-Sambrook Airplane; The Post Office.

This makes out six, and we are at a loss to choose the seventh. The Stevedore's Discour Field is truly a wonder, but it cannot be honestly classed as belonging to Bassano, for the field is some thirty miles east of here. Someone suggested Harry Bassano's pea patch, and this, we think, is worthy of consideration.

The Bassano Creamery is the only creamery liquor store as the seventh wonder, and while the local liquor store possesses certain merits, we hardly think it worthy of a place on the list. It is our own opinion that the Bassano Creamery should be named Bassano's seventh wonder, not for the beauty of its architecture at times, but for its historical value as the meeting place where citizens discuss the destiny of the town, a public forum where ideas are aired and opinions moulded. Perhaps, with its historical background and its sacred traditions should, indeed, be given a place among Bassano's wonders.

THE CANALS ROAD
 Although the provincial Department of Public Works declined to build the Canals road this year, the farmers of the Bow Slope district should not be discouraged and give up the idea of getting this road.

These farmers petitioned the government to build a road from Canals to Lathorn and thus provide them with a through highway from Bow Slope to Bassano. The department stated they were unable to finance the building of the road this year, but gave the assurance that next year the matter would be considered.

The Bow Slope farmers, all of whom are very anxious to have the road built, should follow up the petition with further requests early next spring so that the matter may be kept fresh in the minds of the public works officials, and its urgency impressed upon them.

A Puzzle
 Sambo: "Didn't you tell me dat 'profratinate' means to put off?"
 Professor: "Dat am de significance of the word—yes sah."
 Sambo: "Den, why did dat street car conductor laugh when I say: 'Profratinate me at 21st Street?'"

Pop Was Wrong
 Son: "Say pop, I got in trouble at school today, and it's your fault."
 Pop: "If that's so, what?"
 Son: "Remember I asked you how much \$1,000,000 was?"
 Pop: "Yes, I remember."
 Son: "Well, 'a helluva lot' isn't the right answer."

A Couple of Reasons
 She: "I habbed my hair to show my independence."
 He: "What did you bob your hair for?"

ROADS ALSO SLEEP
 (By Glenn T. Neville)
 When the moon has set
 The night is a deep
 Mantle of velvet
 For roads that sleep.
 Highways that weave
 In a mystic skein
 Like fingers of peace
 Over crag and plain.
 Forgotten are workaday
 Travels and rest
 Of freights and commerce—
 Roads, too, must rest.
 No roar of motors
 No headlights' beams
 Lightens their slumber—
 Perhaps they dream.
 Dreams of a day
 When their hard flat rang
 With hoof beats of pinto
 And of men who sang.
 Strange wild songs
 As they thundered down
 To a joy day snare
 In the hard town—
 Or of Redmen riding
 In single file,
 With faces imitable
 Mile after mile.
 When the last headlight
 Has followed its gleam
 Into the darkness,
 Roads sleep—and dream.

HI-JACKER
 The lawyer men, with legal minds,
 And perspicacity,
 Resolve a little knot or two
 And rate a pretty fee.
 And business men with business
 brains
 In travail and in sweat
 And conferences, reduce the costs
 And magnify the net.
 And yet a curly headed blonde
 Will simply smile and say:
 "I'm not a bit afraid of you!"
 And take it all away!

MISLAD PEARLS
 Your teeth my love, are like the stars
 That shine so bright above you;
 Their pearls whiteness holds a charm
 Which makes the whole world love
 you.
 Whence'er your eyes look into mine,
 They let my smiles dancing,
 But when you smile at me, my love,
 'Tis then that most enrapturing,
 Those lovely teeth—I'll sing their
 praise
 As long as I am able,
 But do you think it proper, love,
 To leave them on the table?

**Power that says
 "follow the
 leader" to any
 car on the road**
 Outstanding among the many improvements in the new McLaughlin-Buick is the marked increase in power provided by the new McLaughlin-Buick valve-in-head engine.
 This great new engine develops 98 horsepower in the 124 and 132-inch Series, and 80 horsepower in the 118-inch Series, thus assuring superabundant reserve for every motoring need.
 This tremendous increase in power, together with innumerable refinements bearing on other phases of engine operation, not only endow the new McLaughlin-Buick with unrivaled acceleration, hill ability and speed, but impart marvelous new flexibility, and velvet smoothness at any pace . . . without any increase in fuel consumption.
 See the new McLaughlin-Buick today! Compare the beauty of its new Bodies by Fisher, Test getaway, speed, power on hills, smoothness, flexibility! Then you, too, will acclaim McLaughlin-Buick the world's greatest motor car value.

What would it cost to replace your farm buildings if they burned?
Or your stock if they died?
Or your crop if it were "hauled out"?
Or if THAT happened?

YOU are more valuable than buildings, implements, stock and crops put together. What is your REPLACEMENT VALUE?

You pay your farm helper from \$50 to \$100 a month—and board.

Are you worth that much?

You can take out a life assurance policy to provide \$30.00, \$75.00, \$100.00 a month or more in case of your death.

This will provide the wage of a hired man at least, and enable your family to hold on to the farm.

See the Sun Life man. He has a policy for every need.

CHEVROLET ANNOUNCES TWO NEW MODELS

Two new Chevrolet six cylinder models have just been announced by the Chevrolet Motor Co. of Canada. Their introduction has come at a time when Chevrolet is enjoying sales far ahead of those ever recorded, by a manufacturer of six cylinder cars. Figures just issued reveal that more than a million Chevrolet models have been produced so far this year. Chevrolet's two new models are the sport coupe and the Imperial sedan. The former is a smart, four passenger car, complete in every detail and yet moderately priced. The top and rear quarters of this model are solid, a roomy folding seat, in the rear deck accommodates two passengers, and the rear window may be lowered to make driving more enjoyable for the whole party. The Fisher body is streamlined and finished in new Duco colors.

The Imperial sedan is also built with solid top and rear quarters. Landau trim, plated with sparkling chromium, give a touch of distinction to the car. A long, sweeping hood, bullet type headlamps, chromium plated radiator, and one piece full crown fenders as found on all Chevrolet models, add further to the appearance. The Fisher body has smart, concave front pillars with rakishly moulded viner. The standard colors are black with moulding in eggshell green and striping in task ivory.

In these, as in other Chevrolet models, is found the 46 horse power six cylinder Chevrolet motor, with its fast pump, air cleaner, improved combustion chamber, and other features.

HEALTH SERVICE

OF THE CANADIAN MEDICAL ASSN TUBERCULOSIS IN CHILDREN

At the annual meeting of the Canadian Public Health Association, Dr. R. M. Price reported the results of a research which is of public interest. This research was concerned with the important subject of the spread of bovine tuberculosis, that is, the type of tuberculosis from which cattle suffer and which also attacks children.

From the report the following statements are taken: "The incidence of bovine infection in man therefore, depends upon the amount of tuberculosis in cattle from which the milk is obtained and the amount of raw milk consumed by children." "In Canada about five per cent of cattle tested react to tuberculosis." "The younger the individual, the greater is the probability of the infection through the milk consumed, and the more likely is the case to be due to the bovine type."

In a group of 148 children studied the bovine type of tuberculosis was found in 29 of them. Of the 118 children who showed infection with the human type, most of them gave a history of living in contact with a case of pulmonary tuberculosis. In many of the bovine cases there was a history of the use of raw milk and, in most cases, the relationship to milk was shown.

The important and most instructive practical point is that all of the children who had the bovine type of the disease came from places where the milk supply was not pasteurized. The group studied included a number of children living in the city of Toronto, and not one of these children had the bovine infection. The milk supply of Toronto has been pasteurized for a number of years.

It is hardly necessary to draw conclusions. It is evident that, by pasteurization, we can eliminate the bovine type of tuberculosis which is responsible for quite a percentage of tuberculosis among children who use raw milk. Disinfection, disfigurement, suffering, and sometimes death are the results of bovine tuberculosis in children. Pasteurized milk is safe and its use safeguards children from many diseases, including bovine tuberculosis.

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

Dummy was in Luck

The film director was making a western thriller, and working very hard to get some action into it.

Finally he turned from the brink of a cliff, nudged his brow, and glanced at a dummy made of straw and old clothes lying on the ground beside him.

"Good heavens!" he shouted. "Was it we threw over the cliff?"

CANADIAN FLOUR SHIPMENTS

Montreal—Canada shipped wheat, flour directly to 33 countries during the last crop year ending July 31st, and wheat to 34 countries. A return of the Dominion Bureau of Statistics covering this period showed exports of wheat to all destinations at 354,424,699 bushels, and of wheat flour at 11,595,775 barrels. The greatest volume of flour shipped from Canada in the last crop year went to China, with the United Kingdom second and Germany third. Shipments to China amounted to 2,646,467 barrels; those to the United Kingdom 2,437,867 barrels, and to Germany 1,697,589 barrels.

FARM LOAN SCHEME

Ottawa—Since the Canadian Farm Loan Board opened for business five months ago, 294 applications for loans have been received at the head office in Ottawa, of which 254 have been approved while 56 are pending and 14 have been rejected. The average loan in British Columbia has been \$3,584; in Alberta \$3,925; in New Brunswick \$1,767; and in Nova Scotia \$1,242. To receive a loan the applicant must be a man of integrity, and must have a reasonable knowledge of and experience in farming. Loans are made on first mortgage security on farm lands and the insurance improvements thereon.

Here and There

Two scholarships at McGill University, Montreal, covering five years' tuition for employees who are illiterate or whose sons or daughters have been awarded by the Canadian Pacific Railway this year, one to C. P. Stanger, son of R. P. L. Stanger, assistant general passenger agent, and the other to William P. Dunlop, son of John Dunlop of the pension department of the railway at the head office of the company. The scholarships provide for one year's tuition in the faculty of arts followed by four years' tuition in architecture, chemical, civil, mechanical or electrical engineering.

Right Hon. Winston Churchill, Chancellor of the Exchequer in the late Baldwin Government in Great Britain, arrived in Canada recently on the Empress of Australia and made a tour of the country from Montreal to Victoria. He visited Toronto, Hamilton, Niagara Falls, Winnipeg, Regina, Edmonton, Calgary, Banff, Lake Louise, Steamboat, Vancouver and Victoria. He will leave the latter city September 5 arriving at Seattle the same evening. He travelled Canadian Pacific railway and steamships during the whole of his trip.

Purchased for a sum in excess of \$50,000, an oil painting of Lord Peterborough by Sir Anthony Van Dyck, court painter to King Charles I., was carried by the Canadian Pacific Express Company by passenger train from Montreal recently, very special precautions being taken to ensure safe delivery. It was bought by A. J. Nesbitt, prominent business leader of Montreal.

THE FORD CAR STEEL SPOKE WHEELS

Close up view showing how Ford Specified Tire fits into drop centre rim

Greater Strength and Durability

THE Ford Steel Spoke (Drop Centre) wheel is an advanced step in engineering and the result of exhaustive experimental tests. It is smart in appearance, extra strong, having a lasting finish, easy to clean and provides a simple method for mounting and demounting the tire without tools and in a fraction of the time previously required.

The steel rods or spokes, 1/2" in diameter, are electrically welded to rim and hub shell. The finish is enamel baked on steel. Possessing great resiliency and being one solid piece, these wheels have a sturdiness not approached by any other type.

The Ford wheel eliminates loose, squeaking spokes and rims, pinched tubes, clipped or peeling finish, necessity of tire flap, misalignment of tires due to carelessly mounted rims, and a host of other wheel and tire ills formerly encountered. It permits of easy steering and no drumming sound is created by the wind.

There is an enormous amount of careful work necessary to build strength and service into the Ford Steel Spoke wheel, and the results justify the engineering study and skill devoted to this feature of the Ford car.

Local News

Robt. McLean, K. C. was a business visitor to Calgary early this week.

Mr. and Mrs. J. N. Cawsey are away on a vacation in the Edmonton district.

Mrs. P. C. McCrae and children are visiting in Crossfield, north of Calgary.

Mr. and Mrs. Chas. Tutts are leaving soon to make their home in the Peace River country.

The newly formed curling club at Hussar will hold a ball and chicken supper on Friday evening of this week, Sept. 26th.

Abbe Weaver left last Saturday for his home in Des Moines, Iowa. For the past couple of weeks he has been in this district looking after his farming interests here.

Harold T. Elvin, of Calgary, is in charge of the Bassano detachment of the Alberta Provincial Police during the absence of Sergt. Cawsey.

Alterations and interior decorating are taking place this week in the new premises of the government liquor vendor.

Mrs. C. W. Hayes, of Calgary, is in Bassano this week visiting with Mrs. F. Gayford.

Duck shooting season opened last Monday morning, and some of the local hunters bagged a fine bunch of birds.

Mrs. B. Leonard and daughters Beatrice and Prada, returned home last Sunday after visiting for the past few weeks in Ontario.

Jim Jordan is leaving in a few days for Rochester. He is holding an auction sale at his farm near Majorville on Sept. 25th.

Mr. and Mrs. W. J. Redmond made a motor trip to Cardston last Sunday, returning home Wednesday afternoon.

Mr. and Mrs. Wm. Vandt, of San Jose, California, were in Bassano early this week. Mr. Vandt is a former resident of Bassano, and owns the Johnston store building.

The Nelsons, of Calgary, formerly a resident of Bassano, came down from the city last Sunday for the opening of the duck hunting season Monday morning.

The members of the Bassano Tennis Club had planned to play in Glenlea last Wednesday afternoon, but the visit was postponed till next week.

Harvey Smith left last week for Weyburn, Saskatchewan, on a vacation. He was accompanied by Mrs. Smith's mother, Mrs. McClelland, who has been visiting in Brooks.

W. J. Blankstein, Canon Harrison, H. O. Bredin, A. E. Stewart, and W. J. Smith motored to Brooks last Saturday evening to hear an address given by Col. Amery, who was visiting relatives in Brooks.

The date of the school fair dance at Glen has been changed from Thursday, Sept. 26th to Friday, Sept. 27th. The fair will be held on Thursday, and the dance will be held the next evening. The Bassano Orchestra will play.

PENNIES AVAILABLE

Two years ago a shipment of 2000 pennies were imported from Holland by Messrs. Bark and Baird, of the C. F. R. Irrigation Development Branch at Brooks. These pennies were distributed to all on the Eastern Section Irrigation Project, who desired them at actual cost, namely, 36 cents per root.

This first shipment of pennies, has done so well that numerous requests have been received by Mr. Bark and Mr. Baird, this past summer, asking them to bring in another shipment. This has been done, and a second shipment of 2000 roots will arrive in Brooks some time in October.

At the present time there are still available a few hundred of these penny roots for which orders have not yet been received, and anyone desiring them can obtain same by writing to R. Baird at Brooks, stating how many are wanted and sending a deposit of 10 cents per root with the letter, the balance can then be paid when the pennies arrive. The price this year will be actual cost, and should be 26 cents per root.

The penny is one of the most beautiful and hardy flowers it is possible to grow. After planting they will reach their maximum growth in three or four years and from then on will continue to bloom every year almost

definitely. The plants will bloom the second summer after planting. Every farmer and resident in our towns on this irrigation project should have a few of these beautiful plants. Now is your opportunity to secure them at low cost, so don't delay writing in your order. If you want to get in on this shipment.

THIRTS
Another catalog of Jersey beef calves, 36 in number, has been shipped from Lenoirville to New Brunswick for distribution to bathmen and St. Stephen. This makes a total of five cars—162 head of high class Jerseys brought into New Brunswick during the last two months from Quebec.

A fast twenty-foot quarter mile race track built up and surfaced like a good tennis court will be ready for the 40th annual Dominion track and field championships to be held at Banff September 2 next. The infield has been specially prepared and removed and the grand stand enlarged to accommodate four hundred people. The meet in the fall will be the first time the Dominion championships have been held in Alberta since 1922. The Banff Club and the Banff Athletic Club will precede and coincide with the championship meet.

WORLD HAPPENINGS
BRIEFLY TOLD

Hon. R. H. Bennett, leader of the Conservative opposition at Ottawa, was elected president of the Canadian Red Cross Association, succeeding the Hon. Wallace Nesbitt, K.C., of Toronto.

According to Assessment Commissioner Farley, the population of Toronto this year showed an increase of 20,742, as compared with 1928. The figures are: 1928, 600,370; 1928, 688,628.

Five thousand tons of anthracite from the Conak River Don Mining section, the first coal from Soviet Russia to be imported at Halifax, was landed here from the British freighter, "Hilfaholm," which arrived from Murgo, Russia.

Owing to the recent Canadian order against the importation of Scotch cattle from the United States, the Prince of Wales has been prevented from shipping to his Alberta ranch some recent purchases of pedigree Ayshire cattle.

Coal, one of the few minerals which new Ontario's wealthy mining fields had long failed to show, has been discovered in vast quantities on the Atchafalaya River, 90 miles north of Cochrane. Premier Ferguson announced.

Hon. W. L. Mackenzie King, Canadian Prime Minister, is expected to make a tour of the West and British Columbia during October. Hon. J. H. King informed the committee of the British Columbia Liberal Association at Vancouver.

The government crop report issued by the Dominion Bureau of Statistics estimated the wheat crop for all Canada at 293,702,000 bushels. The crop last year was 266,166,000 bushels, which was a record crop for this country. The estimate for the three prairie provinces is 269,471,000 bushels. Last year the prairies produced 254,588,000 bushels.

Death Dealing Toxin

Deadly Possibilities Of Use In Warfare Is Explained

The dreadful possibilities of a certain death dealing toxin in war time was mentioned by Professor Leonard Hill, in an address to the Sanitary Inspectors' Association, at Lowestoft, England.

Professor Hill called attention to "a certain bacilli which shall be named, but is easily cultivated."

"If men were as susceptible as guinea pigs are to the toxin produced by this bacillus and there is reason to think they are, it would appear that one gramme, let us say a half spoonful of the dry toxin would suffice to kill a million persons."

Prof. Hill said that the toxin acted if inhaled or if it touched the eye as a powder. He asked the association members "If men set out to prepare such a toxin and to scatter it by aeroplanes, what would be the use of the paucity of war?"

Forest Fire Fighting Methods

New Methods Developed To Cope With Serious Menace

Forest fires in Canada are, to an increasing extent, being fought by specially designed apparatus. Light gasoline fire-pumps have been put into use which will deliver a forceful stream of water through half a mile of hose. Fighting the fires at night is also greatly expedited by the use of lamps similar to those used by miners, which can be attached to the worker's cap and so enable him to keep on working during the hours of darkness, at the very time when his work will have the greatest effect.

If drivers would only get it into their heads that it is the wrecker's driver that we want instead of the reckless driver, all would be well on the King's highway.

The leading best of Newfoundland sets sail on a date fixed by law, for no sails may be lifted except in the six weeks' period of the spring.

Father: "One of us must marry, or we shall go bankrupt."

Son: "Then you, father. You will not have to be a son-in-law. You will be a son-in-law."

Infra-Red Rays

Can Be Used For Penetrating the Deepest Fog

Infra-red rays, the "invisible light" with which the camera peers far into the impenetrable fog, now brings to view tiny, living objects that hitherto escaped detection by the microscope. Use of these rays in medical photography was described to the thirteenth International Physiological Congress at Harvard Medical School by Jean Bertrand and J. Justin-Besancon, of Paris. Infra-red is a longer wave length than red, the most lengthy visible ray. It is an intervening step between light and heat.

The Frenchmen exclude all visible light from the photographic plate which is especially sensitive to the infra-red emanations. They said that because of the extra length these rays penetrate into and reveal some of the outer portions of living cells. They described photography in a kidney study that revealed organs "entirely missing in the microscopic examinations by the eye."

Passing Of a Pioneer

C. V. Alloway, Of Winnipeg, Dies After Lengthy Illness

Charles Valentine Alloway, pioneer citizen of Winnipeg, who was the first to settle in the west with the Wolseley expedition in 1871, to check the Red Rebellion outpursing in Manitoba and remained to become one of the city's best known residents, died recently in Winnipeg, following a lengthy illness. Mr. Alloway had travelled extensively through northern sections of the west and at one time was within sixty miles of the Arctic circle. He was one of the early visitors to Churchill, Man., and several years ago predicted that the Peace River district, in Alberta, would see heavy farm settlements.

Born in Ireland, Mr. Alloway came to Canada with his parents in infancy. He lived at Hamilton, Ont., from 1855 to 1871.

Fashion

For the third year on his list, Sir John has gone to the modern Spanish. The title is "The Lowland Wolf". From the pen of Angel Guiteras, the play presents to John a romantic tale of 1837, that makes an appeal to everyone. It is the story of the handsome love of the Duke of Tordesillas, 40, for a young girl. It abounds in humor, pathos, and the general beauty associated with the gentle, kindly age it represents. As Sir Jasper, Sir John-Martin-Harvey is seen at his best.

The most representative health exhibit ever shown in Canada was a recent feature of the Canadian National Exhibition, when the Ontario Government provided space in its excellent show for leading voluntary health societies. Above is shown the Canadian Radio Hygiene Clinic booth designed by Dr. G. P. Fenwick, of Toronto. Other agencies given space by the government were the St. John Ambulance Association, Victorian Order of Nurses, Child Welfare Council and the Red Cross.

Visit Of Sir John Martin-Harvey

Again Coming To Canada With Three Well-Chosen Plays

Who will ever take the place Sir John Martin-Harvey has won for himself in his many visits to Canada? The thought arises from his announcement that on this tour, during which he will be seen at The Grand Theatre, Regina, on November 4, 5 and 6, he will make his farewell appearance as Sidney Carton in "The Only Way." In this role, in this splendid drama, Sir John has built up through many years a reputation that is probably unique in stage history. To the confirmed theatregoer the final speech of this well-known character is probably as well known as the soliloquies of Hamlet, and all because Sir John brought his great ability to a part that could be less than mediocre in the hands of an actor of ordinary rank and merit. It is truly to be regretted that Sir John has decided to end Sidney Carton, for it is, as there is unlikely to be anyone in this generation who will revive the role to the satisfaction of those who have seen the greatest of Sidney Cartons.

Sir John has made another of his surprising moves in adding for his tour "Rosemary" to his repertoire. This rare piece is a romantic drama of 1837, that makes an appeal to everyone. It is the story of the handsome love of the Duke of Tordesillas, 40, for a young girl. It abounds in humor, pathos, and the general beauty associated with the gentle, kindly age it represents. As Sir Jasper, Sir John-Martin-Harvey is seen at his best.

As Sir Jasper, Sir John-Martin-Harvey is seen at his best.

For the third year on his list, Sir John has gone to the modern Spanish. The title is "The Lowland Wolf". From the pen of Angel Guiteras, the play presents to John a romantic tale of 1837, that makes an appeal to everyone. It is the story of the handsome love of the Duke of Tordesillas, 40, for a young girl. It abounds in humor, pathos, and the general beauty associated with the gentle, kindly age it represents. As Sir Jasper, Sir John-Martin-Harvey is seen at his best.

Imposing On Canada

Immigrants Who Refuse Work At Reasonable Wages

Twenty-five British immigrants who have been in Canada a short time, have decided that they do not like the country, refuse work at good wages that is now offered to them and demand that they be sent back to England at the expense of the Canadian Government. Work for five men were offered at harvesting for five dollars a day, but all refused. They were disgusted and wanted to return to England. But that is not making any mark of Canada? What is to prevent hundreds of thousands of men doing the same thing—coming out here for an adventure or to work in a half-hearted way and then return to England at the government's expense?

These men have not the claim on Canadian generosity that they seem to think they have. They are allowed free entry to this country under the expectation that they will make the best of their opportunities. When they are without means of support and also refuse work, they put themselves in the position of vagrants. It is the duty of the government to take this kind they might well be given the disciplinary treatment that is frequently meted out to vagrants. There is no reason why Canada should be imposed upon by such men. If they could not get work of any kind the situation might be different. But when work is offered by which they could maintain themselves or pay their own way back to England, they are compelled to help themselves—Manitoba Free Press.

B.C. Liquor Profits

Largest Sum Recorded Is Announced For Last Semi-Annual Period

Profits from the British Columbia government's liquor business for the last semi-annual period ending March 31, 1929, totalled \$2,806,064, by far the largest sum on record, according to figures recently received. This brought liquor profits from the establishment of government liquor control in June 1921, up to the formidable total of \$24,287,833. As announced recently \$628,919 of the last six months' profits were distributed to municipalities. The amount remaining out of the total of \$2,806,064 was allocated as follows: Consolidated revenues of the government, \$975,599; to the hospitals and charities, \$192,919; mothers' pensions, \$35,455.

Imperial Economic Conference

Stated That It Will Be Held In Ottawa Next Year

It has been decided to hold the next meeting of the Imperial Economic Conference in Ottawa, about the middle of next year. It is doubtful whether Premier MacDonald or Right Hon. Philip Snowden, the Chancellor of the Exchequer, could attend, but it is likely that William Graham, who made such a good impression at The Hague reparations conference when he dealt with the coal situation, will be one of the British delegates.

Study Old Age Pension Plan

To study the operation of Britain's old age pension system, Premier John Bracken, of Manitoba, has left for the Old Land. Mr. Bracken expects to remain in England for a month, during which time he will view the old age pensions scheme from every angle.

A salmon has been timed to swim ten yards in a second.

Employment Of Leisure Time

Man Must Be Trained To Make the Most of Idle Moments

The great good leisure provides to us only an empty shell, and he will be divine or devilish in exact proportion to what we fill him with. For leisure is no less nor more than opportunity; and the personal or social value of opportunity is found in answering the question "For what?" This test applies equally to work. But man for untold ages has been disciplined to work. He knows how to use it productively, but as yet he is a stark novice at leisure. He is like the provincial savage who has found a watch. The chances are that he will merely wear it as an ornament or an amulet. It might open to him one of the great secrets of the universe. It might mean for him the beginning of civilization. But unless he is taught its use there is practically no chance that it will be used with man's latest find. The world needs a new educational discipline: the wise employment of leisure.—Providence Journal.

Want To Go To Church

Government Begged With Requests From People Who Have Moved

The Call Of The North

The lure of the north is strong in the hearts of Canadians. Anyone doubt the fact should see the correspondence pouring in on the Department of Railways and Canada, asking to be allowed to go to Churchill. The flood of requests started when the news item announced that it might be possible trains would be running into that port by the end of the month.

It is rather embarrassing to the department, because at the present the only buildings at Churchill are those to house the men engaged in the dredging and the railway construction. The only food supplies are those belonging to the government.

Hon. C. A. Dunning, minister of railways, announced that his department was preparing a statement which will be published soon explaining the whole situation there.

Winter Fair Building

\$100,000 Winter Fair Building To Be Erected At Saskatoon

Plans for the \$100,000 winter fair building to be erected at the Exhibition grounds at Saskatoon, were approved by the building committee, and tenders will be called for immediately. The cost of the structure, being taken care of jointly by the provincial and federal departments of agriculture and the city.

The building, which will compare favorably with any of its kind in the west, will be 200 feet by 180 feet, and the front elevation 42 feet. The bulk of the main area will seat 4,000 people, and the central portion, which can be pressed into service for concerts, will hold an additional 4,000.

Several species of cactus were taken from America to the Old World by early European explorers and became established in the Mediterranean region.

Ned: "I don't know of a single girl I'd like to marry."

Teddy: "Bless you, they're all tied up to some chump."

WINDOLITE

MADE IN ENGLAND

The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of health and hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the vital Ultra-Violet rays to that by using glass we are artificially excluding these life-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want of a substitute material having exactly the same most effective substance for glass, that it freely allows the Ultra-Violet rays, and that it has a most beneficial effect on the growth and development of plants, and the health and fertility of cattle, and enabled for the first time to have healthy light instead of artificial light.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity of fowls, and has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light let through windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant covers and greenhouses. It will not crack or chip—cuts with an ordinary pair of shears and is easy to fit. WINDOLITE is supplied in rolls any length but is one width of 36 inches only. A square yard of glass of ordinary thickness weighs about 135 to 140 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, Exch. Toronto.

Use WINDOLITE and let YOUR PLANTS and YOUR CHICKENS YOUR YATTLE Bask in 100% Sunlight. Send for booklet "WINDOLITE."

Hunters Get Good Bags First Day of Hunting Season

Ducks Parly 'Plentiful' But Geese Are Scarce

The hunting season opened with a bang last Monday morning when local sportsmen were abroad at daylight on the trail of the wily duck. A good number of birds were brought in by Dr. A. C. Scott, W. E. Van Broeke, Dr. H. E. Barlow, H. A. Holmes, M. R. Milroy, Jimmy Pearson, Dr. A. P. DaSilva, and other local sportsmen. A number of visiting sportsmen from Calgary were also on hand bright and early Monday morning.

There appears to be a fairly plentiful supply of ducks on the big sloughs and the irrigation canals. The geese are scarce, but a few hunters bagged the odd goose.

Duchess News

DUCHESS, Sept. 18—Miss Anna Hole, of the Carey drug store, Brooks, is visiting at her home here before going to Edmonton to resume her studies in pharmacy at the university.

Miss Marie Plew, of Calgary, spent Sunday at the home of her folks, Mr. T. Tounel and family.

W. E. Woodward is spending a few days in Calgary.

A surprise party was given for E. R. Slater on Tuesday evening. It being his birthday. An enjoyable time was had in playing cards.

Little Archie McKinnon, who has been sick, is greatly improved.

Mrs. T. Horn returned Saturday night from Edmonton where she has been visiting friends and relatives.

Special Service At Anglican Church On Sunday Next

At the Anglican Church on Sunday evening next instead of the usual evening service at 7:30 p.m., the great united service of the Provincial Synod will be broadcasted from the Arena, Calgary. The Primate, the Archbishop of Rupert's Land, will be in charge. The Lord Bishop of Winchester will be the preacher, as announced in the daily papers. J. H. Silles has kindly consented to serve for the radio installation in the church.

THE PLAVVER

I come from haunts of nut and bolt
Where I am put together;
Along the king's highway I loit
In various kinds of weather.

I found a corner on two wheels,
I scare a pretty maid;
I love to hear her little squeals
With fearsome anger laden.

I hop, I skip, I run, I jump,
In little sharp and trebles;
I always hit the biggest bump;
I rattle on the pebbles.

I bring, I bong, I bong, I bust,
I almost go to pieces;
I'm covered o'er with grime and dust,
My action never ceases.

I roam throughout the countryside;
At night, when darkness covers,
Beneath the moon and stars I ride
With young and happy lovers.

Although I hate like sin to hoist,
It was my weakness never,
Big cars may come, big cars may go,
But I ramble on forever.

LOST—A lady's sand colored georgette scarf; finder please return to Miss Jennie Yule, telephone office, Bassano. 11-c
